AZ CORP COMMISSION  
DOCKET CONTROL

Commissioner,

I am strongly opposed to the consolidation of Sun City water district with other districts. I am a retired individual on a fixed monthly income. I do vote. I don't use anywhere near the amount of water that a family would use and I resent that I would have to pay more than I actually use in order to subsidize others. Would you consider this a fair proposal for your parents if they lived in Sun City? You too will be retired one day, are you ready to pay for someone else's water usage? This is just a way for EPCOR to get more money and you know it. We are a group of RETIRED individuals who have worked and contributed all of our lives. We moved to Sun City, a Retirement area for a reason, to retire, not to have to take a part time job in order to pay our living expenses and subsidize others. When you are a working professional, you have the opportunity of earning more money. Most retirees do not have that same option. Please see this proposal for what it is and what effect it will have on the Sun City residents rather than yield to the pressure of the EPCOR executives. Sincerely,

Lynn Bartman
